

Political Giving Disclosures

Starting in 2024, Micron reports on a semi-annual basis its direct and indirect political giving activities including corporate contributions to state and local candidates, parties, and committees; contributions to federal candidates by the Micron Employee Political Action Committee (Micron Employee PAC); and other corporate contributions such as ballot measures or independent political expenditures. The links for the detailed reports of each of those categories is available below:

Micron Corporate Political Contributions [link](#).

Micron Employee PAC Contributions [link](#).

Other Corporate Political Contributions [link](#).

Please note that there is no report for trade association contributions, as Micron prohibits trade associations 501(c)(6)s and 501(c)(4)s from using our membership dues and payments for election-related purposes.

Going forward, these reports will be updated with the latest activity data and provide links to archives of the previous report information.

For information about the principles, criteria, and governance guiding Micron's political engagements, please see the Governance section of our Public Policy page [here](#). Links to the company's lobbying disclosure are available [here](#).

For historical records of contributions made before 2024, please refer to the applicable campaign finance disclosure website.
