MICRON HBM3E

Advancing the rate of AI innovation

Industry's first 8-high 24GB HBM3E cube built on 1β technology process node

—
Highest capacity

—
Fastest speed

—
Ultralow power consumption

Host

HBM3E Cube

Foundation for unprecedented computational capabilities

50%
more capacity[1]

>1.2TB/s
memory bandwidth[2]

>2.5x
improvement in performance/watt[3]

Applications accelerated

Performance and efficiency for data-intensive workloads

Generative AI

Deep learning

High-performance computing
