

## Numbers and Operations: HP Business Manager

Hewlett Packard

**Job Description:** Responsible for business operations planning.

---

### Problem:

We often travel from the United States to Japan for business. As such, we need to convert US Dollars to Japanese Yen for any business transaction.

If a certain item cost 150,000 yen (¥), how much would it be in US Dollars?

Assume an exchange rate of 115 ¥ to \$1.

### Problem:

We often travel from the United States to Japan for business. As such, we need to convert US Dollars to Japanese Yen for any business transaction.

If a certain item cost 150,000 yen (¥), how much would it be in US Dollars?

Assume an exchange rate of 115 ¥ to \$1.

### Solution:

$$150,000 \text{ ¥} \div 115 \text{ ¥} = \text{about } \$1,304$$
